

# Find My Book:

## Guiding users through the library

Laurien Bal - Master Computer Science Engineering, HCI

### CONTEXT

- **Arenberg Campus Library**
- **Understanding UDC** classification number (= location) is **not so trivial**.  
E.g.: 1 681.3\*D1 2002

### GOALS

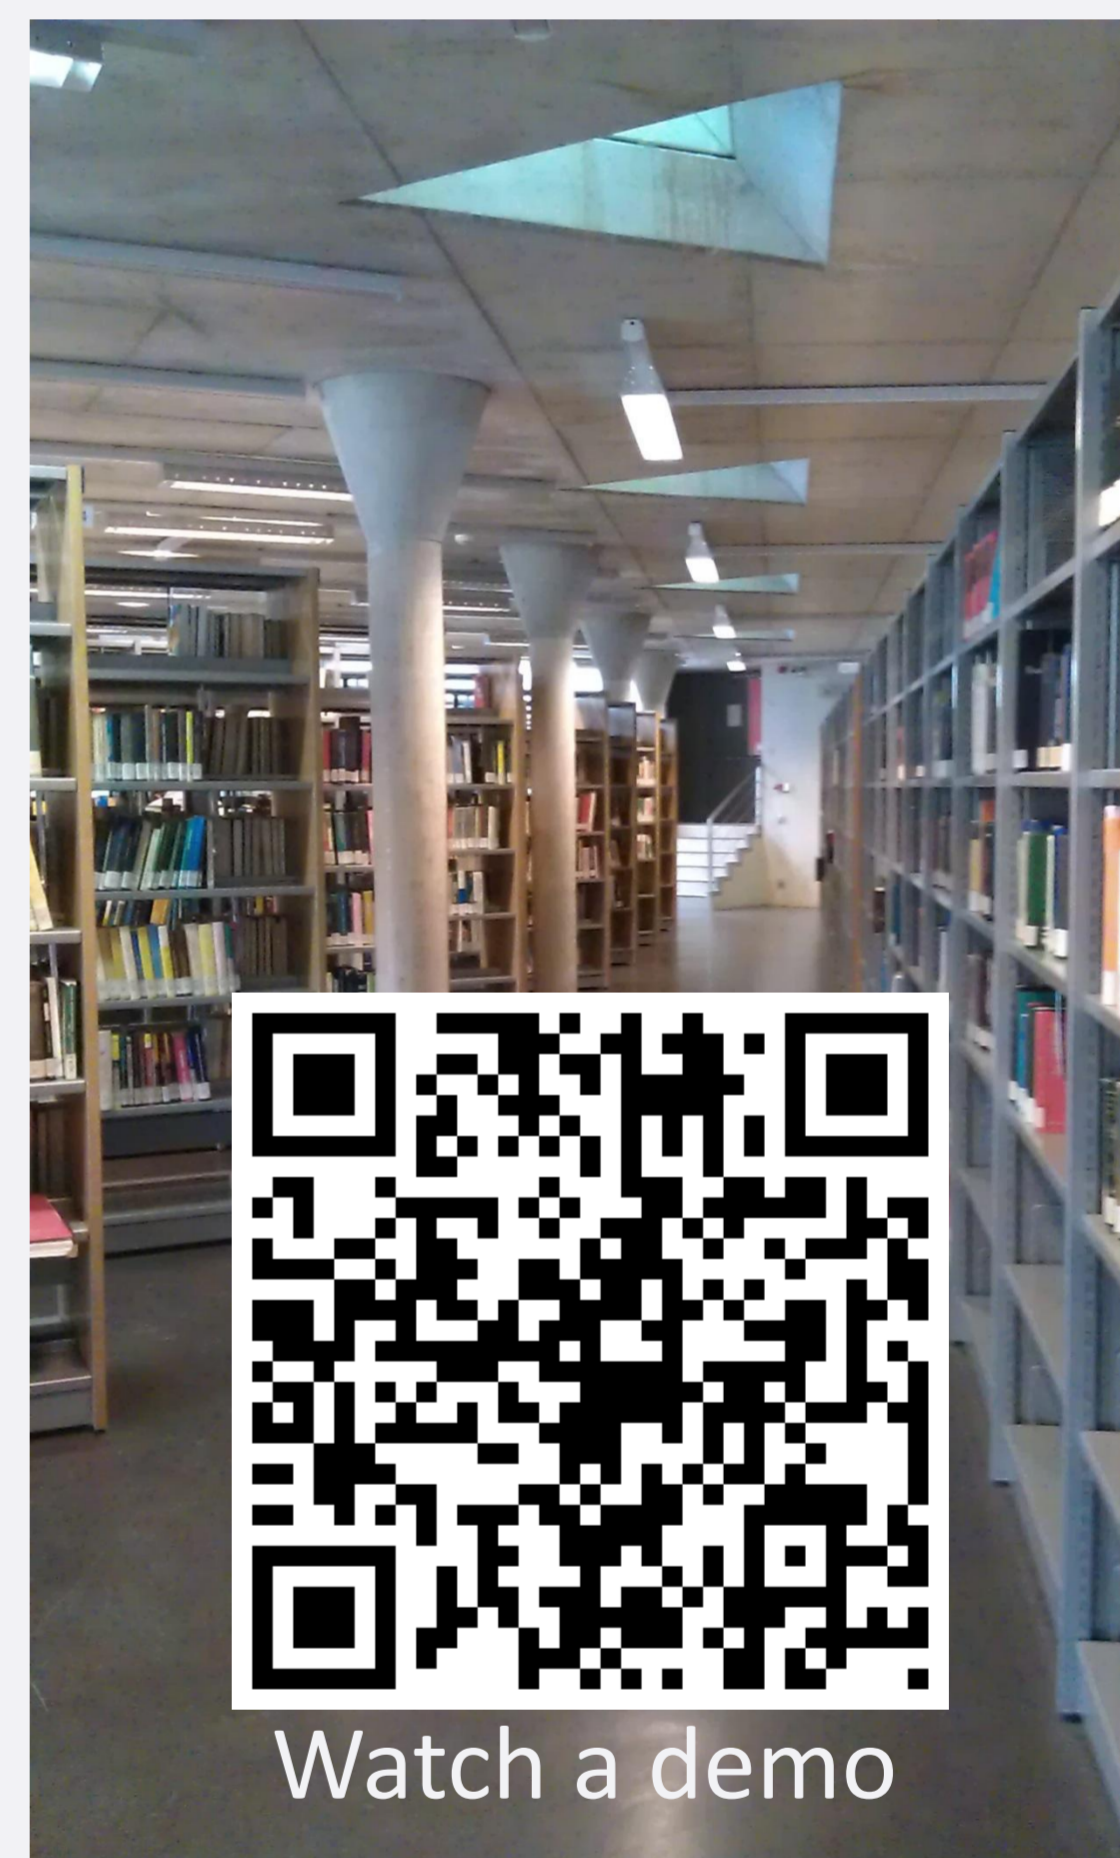

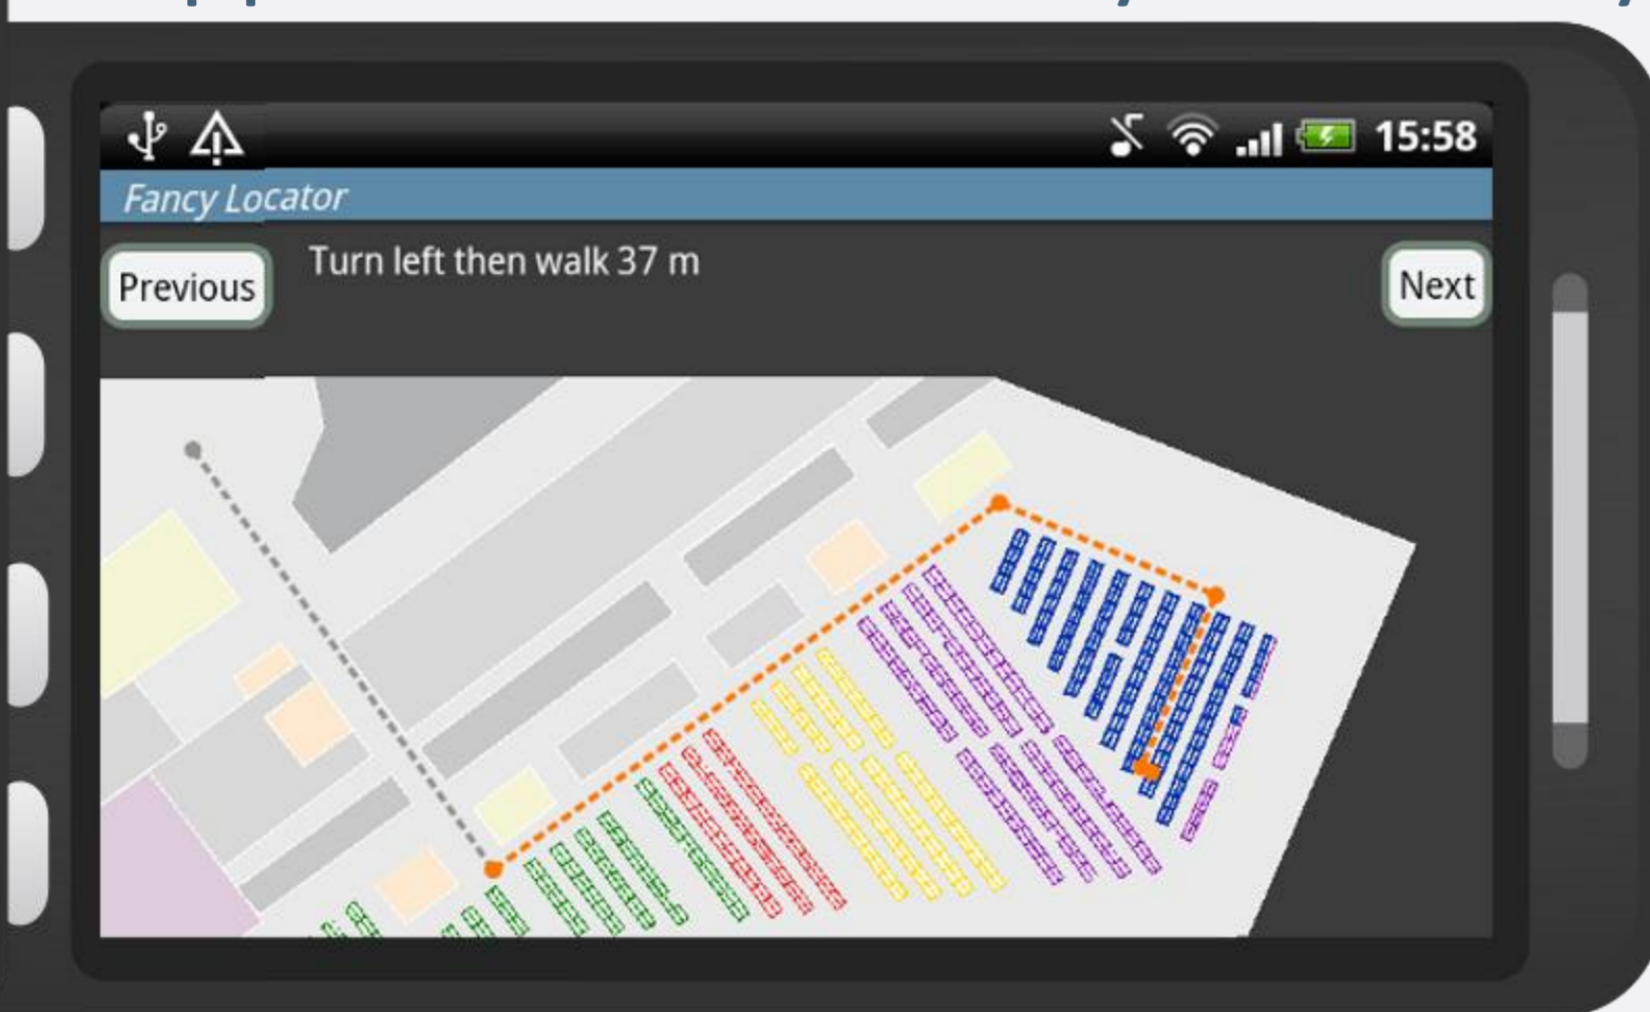

- Development of a **smartphone application** that helps users to find books **more easily**.
- Evaluate **added value, usability** and **usefulness** of the application.

## FANCY LOCATOR APPLICATION

Add books to the reading list which you can look up later.

Select a book to look up and the application will show you the way.

Watch a demo

## RESULTS

- 12 test users.
- 75% agreed it is **easier to find books**.
- 66% agreed they **found the books faster**.
- 91% agreed that the **fancy locator is useful**.
- Average SUS score fancy locator: 88,54 ●
- Average SUS score current system: 57 ●
